

Fall Protection Equipment

Layton offers different types of safety belts for different lineman needs.

To order,

- First. Choose your belt model
- Second. Decide on your pole strap type
- Third. Choose pole strap length

The Century Man (LPSB-SH-001)

Superior design and performance make this belt the industry standard. It combines a padded, contour cushion section with flares for the shifting "D" rings and a 5-1/2" back. This belt gives excellent support and climbing comfort. It is a practical belt with wearable quality which makes it economical.

The Layton Deluxe (LPSB-SH-002)

The Layton Deluxe is a field-tested, proven design. It is one of the original semi-floating, shifting "D" belts. The shifting "D"s reduce chafing and bumps on the hips. The 5" cushion pad is soft and breaks in easily. The harness leather tool loops and tongue and buckle section are designed for rugged wear.

The Hickory (LPSB-SH-003)

The Hickory features a 6 ply nylon tongue and buckle with a unique padded, suede like, contour cushion section. The 5-1/2" wide, split leather cushion is comfortable and makes it easier for the lineman who has trouble keeping his belt in position. This belt offers a full shifting "D" saddle and semi-floating design at an economical price.

The Austere (LPSB-SH-004)

This distinctive fixed "D" belt offers comfort and quality in a semi-floating, 5" wide tool belt. It is rugged, yet lightweight. It features harness leather tool loops and a nylon reinforced tongue and buckle.

The Expeditor (LPSB-SH-005)

Here is a belt designed with the professional in mind. The cushion is glove-soft, yet extremely durable. It features a full shifting "D" saddle and a rolled edge cushion. This is an ideal belt for the lineman who wants value.

The Nylon Deluxe (LPSB-SH-006)

A familiar design in a shifting "D" nylon belt. The neoprene impregnated nylon back is light, durable and flexible in extreme temperature ranges. The 5" leather cushion section is comfortable. The tongue and buckle is 6 ply nylon and the tool loops are leather.

The Arizona (LPSB-SH-007)

A 5" cushion section, nylon back, and a 6 ply tongue and buckle section are features of this practical favorite. It is lightweight, with standard comfort features, including Layton's S-shaped "D" rings and an all leather cushion.

The Nylon Austere (LPSB-SH-008)

The Austere, made of durable nylon, has a semi-floating, fixed "D" design that makes tool handling easier. The nylon back and tongue facilitates maintenance, and a soft leather 5" cushion adds to the comfort of this very practical belt.

Pole or Positioning Straps

Layton's "CA" series Pole Straps feature the easy to use CA snap. This snap action is similar to single locking snaps. All Layton Pole Straps meet or exceed ASTM and OSHA requirements.

50 Series Nylon Straps

LPSB-SH-51	5'6" Strap
LPSB-SH-52	6' Strap
LPSB-SH-53	6'6" Strap
